

Marine Hull

Sail across the ocean with confidence.

Liberty Specialty Markets Latin America

It is no longer about the size of the boat, but also its technology, efficiency, environment and experience.

These are the attributes of the new-generation vessels that come from shipyards around the world to do what they do best: transporting goods and people – while also playing an important role in the economic development of countries. Whether it is a container vessel, a cruise ship or tugboat, each vessel has its own characteristics and risks.

Liberty's expert engineers and risk underwriters undertake this unique challenge. They consistently search for the latest information on emerging shipbuilding trends and developments in the marine insurance industry to ensure our proposals and solutions are in line with each client's needs.

Product scope:

Marine Hull insurance provides protection for hull, machinery and third-party liability for damages or losses during transit, operation, or while ships are docked at any port.

Coverage and products:

Each vessel and its corresponding activity have their own risks. For this reason, **Liberty** has designed products tailored for each type. Coverage includes:

- Hull and machinery.
